Service History: July 2012 AGM – Sept 2018 AGM

Introduction

Up until 2006 the service history of The Society's members was captured in Grey Books. It was also documented between 1990-2013 in The Society's old database iMIS, which will be migrated to the CRM member directory adopted in 2016. This document collates missing service history data from July 2012 to September 2018.

Grey Books were relaunched as 'Grey Records' in 2019 beginning with the period from the September AGM 2018 up until July AGM 2019. There will now be a Grey Record published every year reflecting the previous year's service history. The Grey Record will now showcase service history from Member Forum to Member Forum (typically held in the Winter).
