

The Grey Record

29 November 2024 - 5 December 2025

The information in this Grey Record is true and complete to the best of The Society's knowledge. If you are aware of any errors please let the Governance and Risk Manager know by email: governance@physoc.org

About The Physiological Society

As the largest network of physiologists in Europe, with academic journals of global reach, we continue a nearly 150 year tradition of being at the forefront of the life sciences.

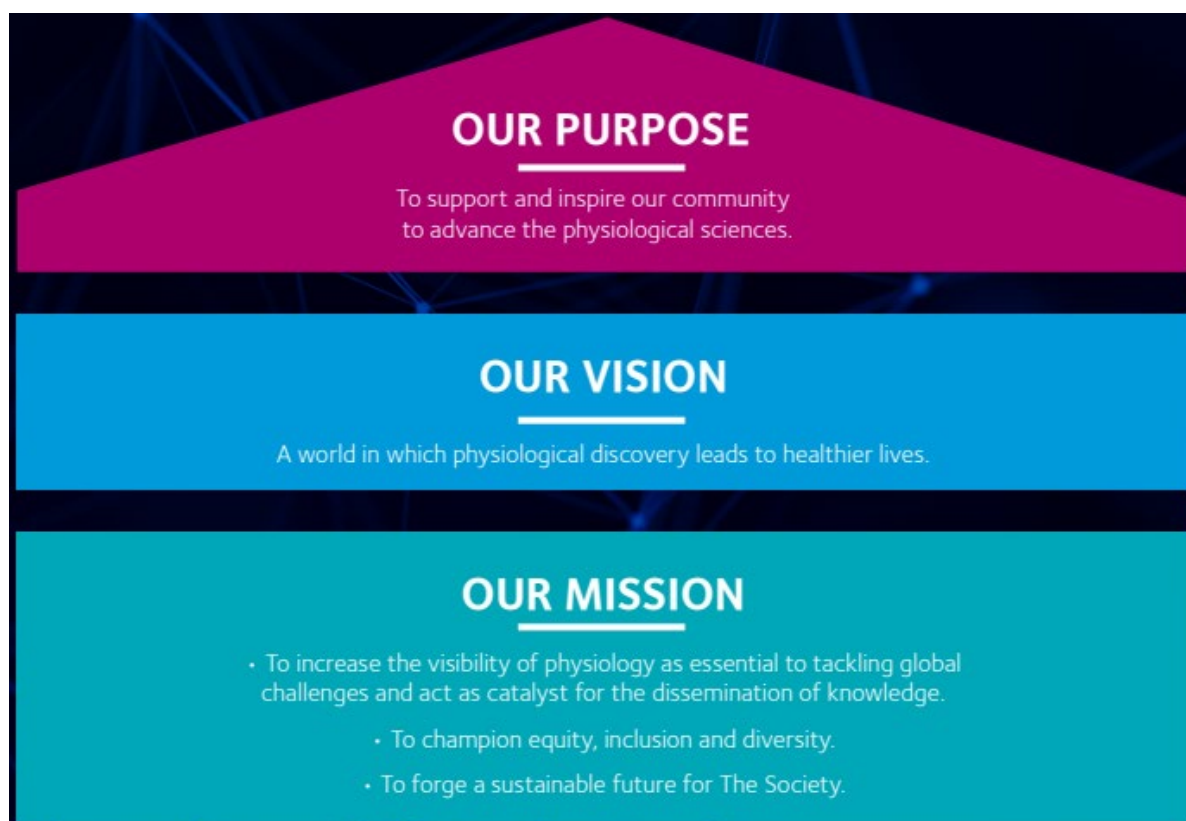

Offices of The Physiological Society

Correspondence and enquiries should be directed to the offices of The Society:

The Physiological Society
Hodgkin Huxley House
30 Farringdon Lane
London EC1R 3AW

Tel: +44 (0) 20 7269 5710
Email: membership@physoc.org
Website: www.physoc.org

Strategy 2023 – 2027:

Board of Trustees

Trustees are legally responsible for the overall governance, management and policy of The Society, ensuring the charitable objectives for which it has been set up are met. The Trustees are also the Directors of The Society. Trustees are elected to serve a period of four years and any voting Member is eligible to stand. Meetings of the Board are chaired by the President.

Honorary Officers

President

Honorary Fellows 2025

We award Honorary Fellowship to persons of distinction in science who have contributed to the advancement of physiology. To see all The Society's Honorary Fellows please visit: <https://www.physoc.org/join/honorary-fellows/>

Professor David Attwell FRS

Professor David Attwell FRS is a leading British neuroscientist with a distinguished career spanning decades and a wealth of expertise in neuroscience and physiology. His diverse research portfolio includes investigations into glial cells, glutamate transporters, stroke, myelin formation, and cerebral blood flow regulation. Attwell is the Jodrell Professor of Physiology at University College London in the Faculty of Life Sciences. Here his lab investigates signalling between neurons, glial cells (microglia, oligodendrocytes and astrocytes) and the vasculature, as well as how the brain's energy supply is controlled and determines the computational power of the brain. In 2024 Attwell was appointed as the Centre Director for the groundbreaking new BHF-UK DRI Centre for Vascular Dementia Research, a partnership between the UK Dementia Research Institute and the British Heart Foundation, to establish the UK's first research Centre dedicated to finding new treatments to prevent, halt and ultimately find cures for vascular dementia. Attwell also served as President of the Physiological Society between 2022 – 2024.

Professor Lucilla Poston CBE

Professor Lucilla Poston is Professor of Maternal & Fetal Health at King's College London. A graduate in Physiology from UCL her research focusses on the lifecourse of health, beginning with the fetus. Learning from animal models developed in her laboratory, she addresses the influence of obesity and diabetes in pregnancy on the long term health of the child. Approaches include studies of mother-child cohorts, development of pragmatic interventions in pregnancy and, recently, a new linkage of maternal and child electronic NHS health record data to interrogate the early life origins of disease at a population level.

Poston is President of the International Society for Developmental Origins of Health and Disease, an Honorary Fellow of the Royal College of Obstetricians and Gynaecologists, a Fellow of the Academy of Medical Sciences and an NIHR Senior Investigator Emeritus. In 2017 Lucilla was awarded a CBE for services to Women's Health, and in 2025 was ranked by Research.com as being among the top female scientists in the world.

Previously Poston was the KCL Tommy's Chair of Maternal & Fetal Health and the Director of the Tommy's Maternal & Fetal Research Unit based at St Thomas' Hospital, and Head of the KCL School of Life Course & Population Sciences.

Committees – Advisory

The Board has committees to which it delegates powers, and these groups report back to the Board.

Scientific Conferences Committee

Catherine Hall (Chair)	Sophie Joannis (Member)
Havovi Chichger (Member)	Christopher Johnson (Member)
Joe Costello (<i>Experimental Physiology</i> Representative)	Morag Mansley (Member)
Paul Greenhaff (<i>The Journal of Physiology</i> Representative)	Colin Murdoch (Member)
Nordine Helassa (Member)	Stefan Trapp (Member)
Alison Howard (Member)	Society contact: Sarah Bundock (sbundock@physoc.org)

EDI Committee

Nephtali Marina-Gonzalez (Chair)	Kehinde Ross (Member)
Avijit Datta (Member)	Derek Scott (Member)
Heidi De Wet (Trustee)	Carolyn Voisey (Member)
Nicholas Freestone (Member)	Society contact: Andrew Mackenzie (amackenzie@physoc.org)
Lewis Mattin (Member)	
Jessica Piasecki (Member)	

Policy Committee

Mike Tipton (Chair)
Heidi de Wet (Trustee)
Áine Kelly (Trustee)
Society contact: Andrew Mackenzie (amackenzie@physoc.org)

Publications Committee

Paul McLoughlin (Chair)
Annette Dolphin (President)
Katharine Jackson (Independent Consultant)
Andrew Parker (Honorary Treasurer)
Rita Scheman (Independent Consultant)
Jian Shi (Member)
David Wyllie (Trustee)
Society contact: Lucinda Periac-Arnold (lperiac@physoc.org)

Committees – Governance

The Board has committees to which it delegates powers, and these groups report back to the Board.

Finance Committee

Andrew Parker (Chair / Honorary Treasurer)

Tania Boyt (External Member)

Heidi de Wet (Trustee)

Annette Dolphin (President)

Markos Klonizakis (Member)

Richard Marshall (Independent Trustee)

Tony Silcock (External Member)

Feisal Subhan (Member)

Society contact: Liam McKay
(lmckay@physoc.org)

Nominations Committee

Annette Dolphin (Chair / President)

Féaron Cassidy (Early Career Trustee)

Nephtali Marina-Gonzalez (Trustee – Chair, EDI Committee)

Mike Tipton (President-elect)

Society contact: Dariel Burdass (dburdass@physoc.org)

Remuneration Committee

Annette Dolphin (Chair / President)

Richard Marshall (Independent Trustee)

Andrew Parker (Chair of Finance Committee / Honorary Treasurer)

Prize Lectures

We award a number of prize lectures each year in recognition of outstanding contributions to physiology. These prize lectures play an important role in our commitment to advancing and promoting the physiological sciences.

The Annual Review Prize Lecture

Susan Wray, University of Liverpool, UK

The Bayliss-Starling Prize Lecture for Mid-Career Physiologists

Samuel Barnes, Imperial College London, UK

The GL Brown Annual Public Prize Lecture

Andrew Jones, University of Exeter, UK

The Hodgkin-Huxley International Prize Lecture

Kristen Harris, University of Texas at Austin, US

The Joan Mott Prize Lecture Celebrating Women Physiologists

Louise Burke, Australian Catholic University, Australia

The Mabel Fitzgerald Prize for Diversity in Physiology

Ming Lei, University of Oxford, UK

The Otto Hutter Physiology Teaching Prize and Lecture

Derek Scott, University of Aberdeen, UK

President's Lecture

Dame Sally Davies, 40th Master of Trinity College, Cambridge University
UK Government's Special Envoy on Antimicrobial Resistance (AMR)

The R Jean Banister Prize Lecture for Early-Career Physiologists

Srikanth Ramaswamy, Newcastle University, UK

The Sharpey-Schafer Prize Lecture for Translational Physiologists

Stephen Waxman, Yale School of Medicine, US

The Widening Participation in Physiology Prize Lecture

Simon Cork, Anglia Ruskin University, UK

Staff of The Physiological Society

The Society is managed on a daily basis by a team of staff based at our Head Office in London.
